

Cost Analyst Washington, DC

Description: Novonics Corporation is seeking a highly motivated individual to provide database, cost estimating and financial management support during the life cycle of a program supporting a Government contract.

Tasking:

- Assists in budget formulation, execution and reconciliation.
- Conducts analytical studies involving complex technical parameters and logistics requirements
- Analyzes and reports on schedule constraints and similar cost-influencing factors to include accounting, procurement and business disciplines.
- Develop and produce project costs.
- Presents plans, recommendations, analyses and other advice within a broad functional area

Education:

Minimum of a Bachelors Degree in applicable field of study and 10 years relevant experience or 20 years of relevant experience.

Experience/Knowledge:

- Must be able to track budget using tools such as Cuff Tool, REGIS, DELPHI, PRISM or similar software.
- Solid experience conducting budget and cost analytical studies for the Government
- Customer interface experience that includes presenting plans, recommendations, analyses and other advice to customers
- Experience using Earned Value Management metrics preferred.
- FAA experience desired.

Travel: Some travel may be required.
